As good as were his rides on Tufter and Ten Lee they were medicere compared to that he put up on Harry Payne Whitney's Good Night in the final. Jesseph E. Widener's Purity was many pounds the best horse, but Sande, who was astride Good Night, overcame this handleap. He accomplished the seemingly impossible. Taplin rode Purity. He rode her head off in the early stages and then put up a weird finish. A sixteenth of a mile from the fudges he was in from his and looked like an easy winner. Good Night was lengths back and apparently as tired as the leader. But Sande didn't quit riding. Instead he worked as he seldom has before and by dint of great labor and horsemanship shoved Good Night along so fast that he caught Purity wabbiling and wen on the post by a nose.

You Wouldn't Pay '800 to '1000 for Such Things

Yet That is Exactly What You May Do, if You Don't Know the Facts

Everything that goes into or on a motor car costs money. The buyer must pay for it.

So when you consider the two types of closed cars that sell under \$2000 think of what you

If you use a closed car to impress by its luxury appearance, then get the most you can for your money in the way of dome lights, vanity cases, clocks and such fittings.

But if you have first regard for car performance, look to the chassis. All reliability and low cost of operation begins there.

What Hudson Gives

The Hudson Coach is mounted on the famous Super-Six chassis. More than 120,000 owners know its reliability. And now with the new improved Super-Six motor, there is found a smoothness and motoring charm that thrills.

The \$1625 you pay for the Hudson Coach goes for qualities that are essential to genuine utility. Closed bodies mounted on cars comparable to the Super-Six in performance and enduring reliability cost \$800 to \$1000 more than the Hudson Coach.

Confirm this by comparing open car prices.

The difference between open and closed car prices, for the most part, represents what you pay for fancy body fittings.

The Coach Endures

The Hudson Coach provides every closed car comfort. It is sturdy, long lasting, and good to look at. You will be proud of it.

But your greatest gratification will come from the performance of the car. In the Super-Six no one ever need give way when real motor performance is concerned.
